EXAMINER'S AMENDMENT/REASONS FOR ALLOWANCE

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 16, line 4, the word "affective" has been deleted and the word ---effective--- has been inserted therefor.

The following is an examiner's statement of reasons for allowance: The examiner has found claims 16-26 to be unobvious over the prior art of record and therefore to be allowable over the prior art of record. The present invention relates to a solid composition consisting essentially of a dry mixture of about 5- 15% w/w glutamine; about 30-50 w/w% carbohydrate comprising an amount of a monosaccharide, a disaccharide or a combination thereof effective to enhance the cellular uptake of glutamine from aqueous solution; an effective amount of buffer or buffering agent; and about 1-5% w/w modified cellulose." The very relevant prior art documents (US 5,438,075) to this invention disclose a composition comprising glutamine and carbohydrate. However, the composition of the present invention consists essentially of specific % w/w of components in specific ratios that are not disclosed by the prior art document and are not obvious over the prior art. Furthermore, the prior art document teaches away in view of the ratios of glutamine to carbohydrates in the composition and does not consist essentially of the components of the composition that are disclosed in the instant invention. In addition, the instant invention composition is a dry solids mixture whereas the composition of the prior art is in

suspension or solution. Consequently, there is no motivation to both alter the weight ratio of carbohydrate to glutamine and to prepare a dry composition based on this altered ratio that consist essentially of the ingredients claimed by applicant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
